The Conviction Prevails at Athen That the Blockade of Greece Will Not Be Enforced.

Athens, April 10.—1,30 s. m.—A private dispatch just received here from Kalambabak says that a band of irregu-Kalambasak saya tata a simon on intega-iars, who were compelled to return to Greek territory, heard a sharp findiade between the Greeks and the Turkish outposts. The dispatch merely reports that three Greek bands invaded the Turkish Territory. But the sensation of the incident is increasing here and there is no telling what the effect of it will be in the present inliaminable con-

The conviction still prevsile here that ekade of Greece will not be enforced, although some diplomats be-lieve it will soon be an accomplished fact.

The Ministerial Prois, indignantly paies today the charges that the government is prepared to barter Crete for a territory assigned to Greece by the

cision of united Europe, and of which she was derived by the contumacions refined of Turkey to confirm.

London, April 9.—The Duilg News will print tomorrow from its correspondent at Larises: The relations between the authorities and the Greek commiste here are becoming somewhat strained. The conceilst is accused of espionage of the Greek military operations in the incality. Many persons of doubtful character have been arrested at various times as Turkish spies.

There are no direct proofs rgainet the consulate, but there is a conviction that everthing relating to the Greek army is perfectly known across the frontier. Nevertheless the Turkish consul up to doay has been allowed to send regnerally long cipher telegrams to the Turkish consul up to the proof of the presence of the property of the Greek prefect for a passport to cross the frontier to. Blasson. The prefect sent him the passport, but he intimated at the same time to the consul that it would be safer to swoid such journeys least he might come to grief at the limited consul that it would be safer to swoid such journeys least he might come to grief at the same time to the consul that it would be safer to swoid such journeys least he might come to grief at the safe to swoid such journeys least the might come to grief at the safe to swoid such journeys least he might come to grief at the safe to such that the consul has not yet started seems to show that he comprehensive the full significance of this suggestion.

The Dully Telegraph will publish to morrow a dispatch from its war correspondent at Elastons, confirming the expected in the morning and the desultory fuertade has proceeded all day long. It is thought probable that fishting will now break out about the entire frontier. The Turkiel council of war was held here to-day.

Carkieli council of war was held here tolay.

The currespondent of the Times at
ricevena says that at 5 o'clock this (Frilay) morning 600 Greek bandits crossed
the frontier between Messor and Bisstate, where they encountered the Turksh troops. The fighting lasted through
the day, with some loss of life and
number of minor causalties.

The Juliy Chranick's Athans correspondent, telegraphing at midnight,
says: The following is all that is known
here of the frontier affair mar Kranla
and Grevens: The commander of the
frontier post. Tsoullini, telegraphed to
the commander of the eighth battaion
at Evenes, mear Trikkala, that the
Turks after a hand of insurgents laid
crossed the frontier, attacked the Greek
positions, namely, these at Fonika,
Perlantas and tomb of himbashi. The
commander added that fring was still
in progress. As, however, he asked for
only one company of reinforcements, inevidently did not consider the affair a
grave one.

MOTHING BUT THE HONOR.

Murderer Butler's Attorneys Will
Get no Pay.

San Firmerisco, April 9.—Murderer
Butler's attorneys will not receive pay
for their services. One of the last act
of the man's disreputable career in San
Francisco, as a linr and maker of fairs
confessions, was the signing of a check
on an Australian bank for \$1400, paysble to his attorneys. It was learned to
day that the news of the issuing of the
check was cabled to Sydney and the pofluce immediately made inquiry at the
bank on which the paper was drawn to
ascertain whether Engres, Harwood,
Ashe or Butler had funds on deposit in
the institution. Payment will be refused on the draft when it is presented,
as there are no funds to the credit of
Butler or any of his aliases at any of the
bank of New South Welsa, Australis,
or New Zealand. The attorneys who
defended will have to be content with
the advertising received through their
connection with the famous case.

Johnson was study required to answer the question as to who was his alleged informant regarding the alanderous atterance reflecting upon the young girls of Freeno. He testified that he did not and never had known his name, but that he was a newspaper man who had been introduced to him by Ray. Gillan. He afterwards testified that he had refused to divinge his name as a matter of honor. The case is being vigorously fought on both eides.

HEAVY LIFE INSURANCE.

Stanford Contracts for a \$1,000,000 Policy.
San Francisco, April 9.—Mrs. Le-land Stanford today signed the contract

by which her life is now insured for by which her life is now insured for \$1,000,000. The policy, which is said to in the isrgest ever issued, was written by the Mutual Life Insurance Company of Now York. By the terms of the contract Mrs. Stanford is to pay an annual premium of \$170,000, and upon her death \$1,000,000 will be paid to the Leland Stanford Jr. University. Should she live ten years and continus her annual payment of premiums, the university will receive the fee death two millions instead of one.

OHIOGOO, April 9.—The legal advisars of the western roads have advised the committee now working on the new agreement of the western passenger association that there is nothing in th sociation that there is nothing made decision to prevent the roads from granting reduced rates whenever they choose, and that the roads can make or maintain any and all kinds of rates as long as the rates do not interfere with

iminitain any and all kinds of rates as long as the rates do not intofere with the convenience of any individual rand. They hase this assertion upon the supreme court decision, which states that the reasonablemess or unreasonablemess or the rates do not enter into conditions. The western roals are expecting trailed over the emigrant rates. The supreme court decision has knocked out the migrant clearing house as a controller of rates, although the roads have been advised that it can be kept in effect as a solicitor of business. There is always been much trouble over this class of business and the roads of the watern passenger association have had agreent rouble with the Southern Pacific, which they declared was paying commissions too high for the provisions of the agreement. There is now very little high the the western roads will be able to induce the Southern Pacific to lower the summissions too high for the provisions of the agreement. There is now very little high the commission rates and the Union Pacific and one or two others are here. DR. ROWELL'S REPORT

THE CHAMBER OF COMMERCE WILL HEAR IT.

An Interview With General Chipman in the "Chronicle" Yesterday.

The Chamber of Commerce will hold special meeting in a few days to reas to the work of the commission sent to Washington to secure a higher tariff on Zante currants. The meeting which was to have been held yesterday after-

100m was postpound.

The Chronicle yesterday had the fol-

lowing:
Dr. Cheater Rewell of Freene and
General N. P. Chinman of Red Bluff,
who were recently sent to Washington
with Colonel Foreyth in the interest of
the raisin growers, returned yesterday
from their mission.
General Chinman stated that the committee was more than satisfied with the
results of its work, and that the proposed tarif legislation would be of great
benefit to the fruit growers. He said
that a comparison of the McKinley and
Dingley bills showed that the Dingley
bill was more favorable to the fruit
grower than the McKinley bill. "It increases the duty on plums and prunes
1/2 cent per pound," he said. "Pickled
olives are taken from the free list and
givon 25 cents par gallon; olive oil is inthe free list and given. 2 cents per
pound, and orangae and lumons are
given 1/2 of a cent per pound, as against
list cents per box of one and one-fourtle
cubic foet.
"Compared with what the fruit grows asked in the convenion held at Sac-

IN cente por box of one and one-fourth cubic feet.

"Oompared with what the fruit growers asked in the convention held at Sacramento, they got all they saked, oxcept & cent on Zante currente. I tention unshelled almonds and & cent on shelled almonds and % cent on shelled almonds, and 50 cents per gallon on olive oil, white ther got about twice as much as was asked on oranges and lemons.

"The action takon as to Zante currents is of great and vital importance to the raisin growers. While we were driving imported roisins from the market the Zante currents, by increased importations, were dinking the raisin industry and rapidly destroying it. This industry will now revive and again become profitable.

"The increase given the orange and lemon growers will greatly ald that industry. Our other fruits are well cared for, and nothing now stands in the way of better times for the fruit grower but the dalayed restoration of basiness prosperity." When asked what he thought of the

two bottles contained toilet preparations. He found no receptacle that contained poison.

Mark Webster gave the result of his examination of Harding's stomach. Fifteen tests were unde for attyphine, but not the slightest trace of this poison could be discovered. Then tests were made for morphine, every one revealing traces of this poison. Owing to the lask of time and appearons, however, the quantity could not be ascertained. Tests were also made for other poisons, but without results and the sacertained. Tests were also made for other poisons, but without results and the particular than the same of the first of the same and the same

named his death in so short a time, if at all.

The jury, after due deliberation, decided that Harding had come to his death from poison, taken by himself, but could not say whether he bad taken it accidentally or intentionally. It is considered strange that while all the symptoms displayed by Harding prior to his death inclosed strenning poison, or trace of the poison could be found. The belief is also growing that he committed setticide, notwithstanding his own statement that he had taken puison by mindake.

Harding's funeral will be held Sunday afternoon at 1.30 o'clock from the Freeno undertaking pariors on I street under the anapices of Constral California lodge, I. O. O. F., and Friendship Lodge of the Rebeccas.

BILBY MAKES ANSWER

To the Charges of an Anonymou Scribbler.

Entron Repusitors.—The Expositor of this date publishes an article reflecting upon the manner in which certain street work has been done at the west end of Pulure street, and signed R., but which

work has been done at the west can be fluid there the should lave been signed J. W. R. It is intentionally misleading and cannot be an ported by facts.

When I took the office of street superintendent four years ago I found nearly all the driveways leading to the court west winding, like a ratternik 'estail, as come of them.—Karn street for instance—are today. Three years ago I laid out Thisrs and Fresno streets on the lines where they belonged, and each year since then I have done a little work on them to make them passable. There is a great deal of travel out them to make them passable and the street, and where J. W. R. saw some fresh earth it was simply filling in on the main driveway, where it was cutting into large chuck holes, which would have remered the roadway impassable helper to the passable such the street was cutting into large chuck holes, which would have remered the roadway impassable helper of the readway impassable helper of the hay and fruit handing commenced. I have done what I thought was necressary, no more and no less.

As for filling in on Mr. Spinney's lots, No.

thought was necessary, no more and no lass.

As for filling in on Mr. Spinney's lots, there is no truth in the charge. Not one load of drt has been placed, at the city's expense, on anybody's private property. Furthermore, not one of the more employed belongs to that class which the Expositor is pleased to call "dtuffers." They are all, or nearly all, men of family who own their little loones and pay city taxes.

It is also untrue that I am neglecting Orayeroft to help Spinney. Notiter Orayeroft mor Spinney nor any trustee has ever such as the best interests of the city, always keeping in view the city's diametes.

THE COUNTY SCHOOLS.

Superintendent Kirk Hus About Superintendent Kirk Has About Completed His Annual Visits. County Superintendent T. J. Kirk is home from his second trip to the West Side visiting schools. He paid visits to the following districts: New Hope. Crescent, Lawn Tennie, Idle Wild, Artsela and Mendota. The euperintendent considers the school at Mendota as one of the best in the county.

Mr. Kirk says that he saw the linest growth of grain in the county on the West Side. On the Jeff James ranch there are 10,000 acres. The stand is a beautiful one, and the crop will be very leavy. The superintendent has about completed his rounds of the schools of the county.

THE CITY ELECTION.

INFORMATION FOR THE BENEFIT OF VOTERS

Attorney Merriam Says Transfers May Be Made Any Time Before the Election.

REPUBLICAN :-The qualifica tions for votors at the city election to be held April 12th are estated in section 756 of the Municipal Corporations Act as follows: "No person shall be entitled to vote at such election unless he shall be received." ions for votors at the city election to be e a qualified elector of the county, ento a quantited elector of the covering rolled upon the Great Register thereof, and shall have resided in such city for at least thirty days next preceding each

at least thirty days next preceding each election."

By the it is seen that the voter must, be, first a qualified elector of the county; second, a resident of the city thirty days most proceding the election.

We must look eleawhere to find what the qualifications of an elector of the county arc. These qualifications are found in section 1083 of the Political Code is a follows: "Drery make elitized to the Entire the Political Code is a follows: "Drery make elitized to the United States, every make person who shall have acquited the right of elitizenthe under or by virtue of the treaty of Queretaro, and every make materials of the election precipitation of the water of twenty-one years, who shall have become such minety days prior to any election, and of the county in which be claims hie vote ninety days, and in the election precipitative days, and in the election precipitative days, and in the election precipitative days, and whose name shall be carolled on the Great Register of the county lifteen days prior to an election, shall be qualified to the county in the county of the county in the county of the county in the county in the county of the county of the county of the county in the county of the

follows:

1. Residence in the state one year preceding the election.

2. Residence in the county ninety

thirty days.

4. Enrollment on the Great Register of the county fifteen days prior to an election.

If any one of these four qualifications of residence and registration belacking in any person he is not emitted to vote at any county, city, town or district election.

at any county, city, town or district sleetion.

Now, bearing these four qualifications Now, bearing these four qualifications of an elector in mind, we must inquire how it is determined at a city election that any particular person whose vote may be challenged possesses them. This question is disposed of by another part of section 750, showe referred to, which provides as follows:

"At any nunicipal selection the last printed Great Register of the county shall be used, and any elector whose mane is not upon such printed register shall be used and any cleetor whose mane is entitled to vote upon producing and filling with the board of election a circular to the county clerk, showing that his mane is registered and uncancelled upon the Great Register of such county, provided that he is otherwise entitled to vote.

voice.

Thus it is provided that a paraon entitled to vote, whose name to not on the printed register, may vote on a certificate. The date of the certificate itself is not material, but of course the certificate must show that the party possesses all the qualifications of an elector required by section 1983 of the Political Code. Bo a certificate issued on the 12th of April would prove the right of the party in whose favor it was made to vote at the election that day, provided it showed the facts required by section 1083.

it showed the facts required by section 1083.

Since 1895 precluct registers are required. A person who is on a precinct register is on the Great Register, and if he changes his residence to another precinct may have his registration; in the case of the law. The word transfer implies a previous registration, in the case of the law. The word transfer implies a previous registration; hence a person who was a voter in the First precinct at the general election held. In November, 1830, and who moved in December into the Second precinct and still remainst there, may vote at the city election in the Second precinct and still remainst there, may vote at the city election in the Second precinct and the still remainst there, may vote at the city election in the Second precinct among time the boron the vote is cast. His certificate will show among other things that his registration took place at some time prior to the November election. But if his name appears for the first time on the Great Register within filtern days of the election no certificate will help him out, because he is not a qualified election until he has heen registered fittern days.

elector until he has heen registered are teen days.

It may become important for the city boards of election to observe the dis-tinction between registration and trans-fer. Registration must be made filteen days prior to the city election; transfer may be made at any time hefore the election. In other words, the date of registration is made by law a prerequi-site of votlor; the date of transfer on the register from one precinct to another is not a prerequisite.

# News From The Famous New =:= Store

We understand our competitors are saying that at the low prices

We understand our competitors are saying that at the low prices we are selling goods we can't lest six months. That's just exactly what the Southern Pacific railroad said about the Valley railroad when the latter commenced cutting rates. Notwithstanding the cut in rates which the Valley railroad made they are still in the ring.

Just so with us. We are cutting prices on everything possible. Every force in this great business—capital—experience—earnestness—enterprise—consistency—are enlisted in a crusade against high prices. We are here to stay. We have taken a firm stand, and the combined efforts of all the Fresno merchants cannot make us raise our prices. Here are a few sample prices taken at random from our shoe department:

partment:
CHLD'S GENUINE DONGOLA KID SHOES, made with patent leather
tips, all solid leather, sizes 5 to 8, solid all over town at 75c. Redlicks'
out price 48c.
LADIES' OPERA SLIPPERS, with fancy buckle and strap, regular dol-

lar grade. Our out-price 50c.

Lames' Oxblood Lack Shoes, the new coin too, cloth top to match
vamp, leather back stay, sizes 3 to 7, regular price \$2.50. Our cut

LABIES OLIGION LACK SHOES, the new century grade by the many leasther back stay, sizes 3 to 7, regular price \$2.50. Our cut price \$1.85.

LABIES OLIGION BUTTON SHOES, the new century last, now all the rage in San Francisco, made with the stylish Venetian foxing, fit and finish perfect, made by W. H. Goodger & Co., Rochester, N. Y., cannot be matched in Freeno for less than \$4. Our cut price \$2.75.

CHILD'S DONOLLA KIN SHOES, oak tan soles, solid leather counters, undersoles and heels, durable and neat, solid all over town at \$1, sizes \$\frac{1}{2}\$ to 12. Redlicks' cut price \$73c.

MEN'S CALL CONGRESS, all solid leather, regular \$1.50 grade. Our price \$3c.
